Food Grade

Sectional Flighting comes in almost any size and thickness from 3" Diameter to 40" Diameter and thicknesses from 1/8" to 1 1/2"

Coil Flighting can be Cupped or have the "Supper Edge"

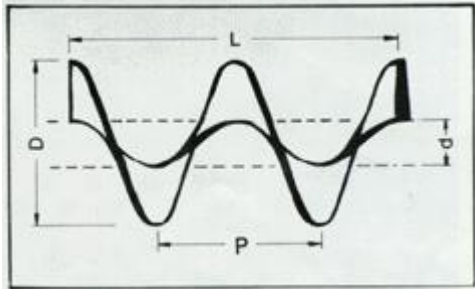

When Ordering please Specify the following

Out Side Diameter (OD) LETTER D IN THE DIAGRAM

Inside Diameter (Core) LETTER d IN THE DIAGRAM

Pitch (measured from one flight to the next) LETTER P IN THE DIAGRAM

Thickness (measured closest to the core)

Sectional or Coil

Coil is one continuous piece that is 5" to 10" long and will get thinner from the base to the edge

Sectional is comes in sections about the same length as the pitch and will be the same thickness from the base to the edge.

This is VERY IMPORTANT!!!

LEFT HAND OR RIGHT HAND PLEASE LOOK AT THE PICTURE BELOW TO MAKE SURE YOU HAVE IT CORRECT.

Left Hand Flighting will coil around the core COUNTER CLOCKWISE.
Right Hand Flighting will coil around the core CLOCKWISE

And finally the length or number of pcs.
